EDUCATION

Addis Ababa University (6th Best University in Africa)

Bachelor of Science in Software Engineering

Addis Ababa, Ethiopia

October 2021 - June 2026

Relevant Course works : Data Structure and Algorithms, Object-Oriented Programming and Software Engineering Principles, Computer Architecture and Organization, Operating Systems, System Programming, Computer Networking, Mobile and Web Application Development

PROJECTS

Taatee - Event Booking System

- Led development of Taatee, integrating PostgreSQL for efficient data management.
- Implemented Docker containerization for seamless operation across environments.
- Optimized user experience, streamlining registration and enhancing engagement.

Academic-Planner-

- Developed "Academic Planner," a dynamic web application facilitating efficient organization and management of academic schedules

CampusConnect- AAU Social Media Platform

- Introduced verified announcements, simplified club engagement, and user-friendly interface.
- Spearheaded "CampusConnect" to tackle communication hurdles at Addis Ababa University.
- Engineered Admin, Club Admin, and User roles for streamlined management and interaction.

EXPERIENCE

Frontend Developer

Mereb Technologies

- Built responsive UIs using **Next.js**, **React**, and **Tailwind CSS**, improving usability and load speed
- Integrated **Supabase** services including Auth, Realtime, and Storage for backend functionality
- Developed and deployed **Edge Functions** using **Deno** for low-latency operations close to users
- Led frontend feature delivery in an agile environment; collaborated with designers and product managers
- Optimized accessibility and cross-device performance, improving Lighthouse scores across products

Languages: TypeScript, JavaScript, Python, Dart, Java, HTML & CSS

Frameworks & Tools:

- **Frontend:** Next.js, React, Tailwind CSS, Flutter
- **Backend:** Supabase (Auth, Realtime, Edge Functions), PostgreSQL
- **DevOps/Other:** Git, Docker, Deno (Edge Functions), Vercel

Problem Solving:

- Solved 400+ problems on LeetCode – strong foundation in algorithms and system design.
